Subject: Equipment Rental Rates for 2012

Date: August 8, 2012

Attached please find the proposed equipment rental rates for the balance of 2012, effective August 1, 2012.

These rates were established after review of the direct and indirect costs for the listed pieces of equipment and compared to the same costs over the last four years using a clearing account process. Also attached are the indirect cost evaluation and the clearing account information.

A resolution needs to be prepared for the Commissioners to adopt the rates.

I would also recommend that this fall we should inventory all of the equipment to verify that we still have it and it is functioning.

I would also recommend that we get together with the Risk Manager and the Insurance Agent to review coverages for the equipment to make sure we are not over-insured or under-insured.
