

FERRY COUNTY
RESOLUTION 2009-16

EMERGENCY DECLARATION

Resolution to lower speed limits on load restricted roads for 2009

Whereas, the winter of 2008-2009 was very cold for an extended duration creating a high amount of frost under plowed roads;

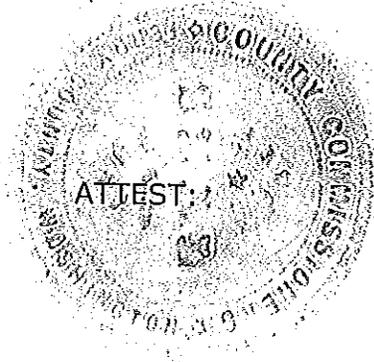

And, whereas load restrictions have been placed on various County roads;

And, whereas those County roads with high truck volumes are likely to be damaged by vehicles operating at the usual posted speed limits;

And, whereas the Washington State Department Transportation has lowered the speed limit for all vehicles on Sign Route 21 from Wolfe Camp Road to Kettle River Road at Curlew to reduce damage;

Now therefore; the County engineer is authorized to post lower speed limits on those load restricted roads he determines are subject to damage from higher speeds.

ADOPTED THIS 23rd DAY OF MARCH, 2009.
